# Partner Meeting

15 September 2021

After the summer holidays, the FAIRLY project partners had the pleasure to meet online to review and discuss the progress of the Fairly project.

The main focus of the meeting was on finalization the content of the Intellectual Output 1 (IO1) „Legal economy training modules: How to take correct financial decisions“ as well as their structuring on the e-Platform of the IO2 “FAIRLY Training Platform and the Webapp”.

The partners has reviewed the advancement in development of the IO2 Fairly Platform and WebApp, planned to be ready and accessible by the public at the end of the year 2021. It will provide for everyone simple information in order to support unemployed, households and professional (mostly freelances) workers in financial education.

The group of stakeholders, selected by each partner, have the task to define a list of topics that in their opinion are fundamental and must be addressed.

Newsletter #2

Fairly project has been funded with support from the European Commission. This publication and all its contents reflect the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

# The platform's development stages go through several tasks, carried out jointly by partners:

## • Collaboration

Collaboration between the IO2 leader VEDA that defined the platform, and all other partners for the elaboration of the training contents of the FAIRLY project within the platform, also including the draft of supplementary specifications that will guide the design of the platform in the following stages.

## • Platform

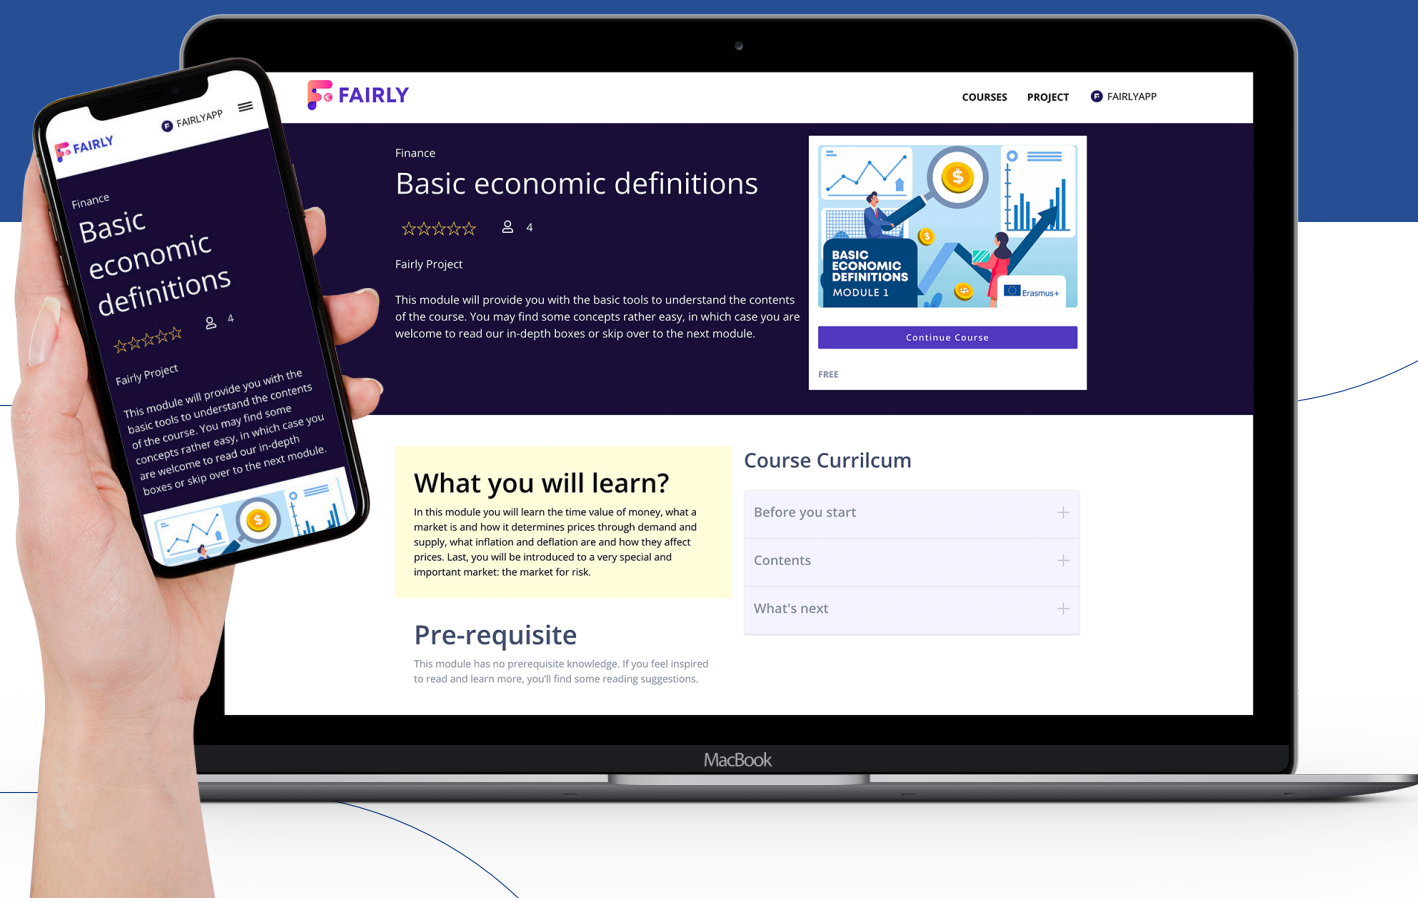

Creation of the Platform on the WPLMS system that will facilitate the spread of the financial information and the courses.

## • Development and design

Development and design of the Platform in a simple and accessible way in order all people in the target group to be able to understand the training contents of the course on the portal.

## • Finalization and testing

Finalization and testing the Platform by the partners, piloting the training contents and its follow-up validation.

# Translation

English would be the language of the main features of the e-learning Platform but, in some cases, the partners will create versions in national languages to help users to understand better the functioning of the Platform. Besides, for the on-line training courses and materials, each partner will have the possibility to translate the material produced in their national languages.

## Transnational Partners' Meeting.

**14-15 October 2021, Italy**

During the online meeting, the partners were very excited to plan the second Transnational Partners' Meeting. It was scheduled for October 14-15, 2021, in Italy. After the collapse as a result of COVID-19, this will be the first face2face meeting for the partners, where they will have the opportunity to meet live.

## Results

The meeting will be hosted by CIOFS-FP Piemonte in Turin and will give a venue to partners to present the first results of the IO1 and IO2. There will be a review of project advancement after eleven months from project start with a specific focus on:

- Review of the IO1 Production (acknowledging IO finalization or decision about further action to take);
- Review the status of the IO2 Platform's development;
- Debating the general structure of the Practical Guide (IO3).

The CIOFS-FP Piemonte will organized for the partners a visit to Bil. Co in Turin - an innovative hub between guidance, training and work services, with a presentation of the Digital Badge methodology.
